

WOODLANDS WILDLIFE REFUGE

Mission Statement

- To receive, rehabilitate and release injured and orphaned native wildlife.
- To educate people about wild animal habits and habitats.
- To protect and create natural environments where people and animals exist in harmony.

As our communities continue to grow and essential habitat is lost, human encounters with wild animals increase and the need for our services becomes more and more important. For 24 years Woodlands has met the needs of both the wild and human communities without any state or federal funding and depends completely on the generosity of others through our fundraising efforts.
