About Us

Woodlands Wildlife Refuge began in the mid 1980's, with the care of two orphaned raccoons. Now Woodlands cares for as many as four hundred animals in one year and enjoys a high success rate. We are a nonprofit charitable 501(C)(3) corporation, and receive no state or federal funds.

Woodlands was founded, and is directed by Tracy Leaver, a New Jersey state licensed wildlife rehabilitator. Woodlands has cared for raccoons, skunks, opossums, rabbits, woodchucks, foxes, squirrels, coyotes, fawns, bats, otters, porcupines, bears, and even a bobcat.

Woodlands has a staff of trained volunteers who care for the animals until their release. Many are trained for emergency and critical care. The doctors and staff at the Animal Hospital of Clinton-Perryville have graciously treated animals needing more extensive care such as X-rays, fracture repair or surgery. The length of time an animal remains in our care depends on the condition of the animal when it is received. All animals are maintained until they are healthy enough to survive in the wild.

Our Mission

- ☛ To receive, rehabilitate, and release injured and orphaned native wildlife.
- ☛ To educate people about wild animal habits and habitats.
- ☛ To protect and create natural environments where people and animals exist in harmony.
